WINE CATEGORY

White Sweet

GRAPE VARIETY

100% Muscat

GRAPE ORIGINATION

Muses Valley, on the mountain of Helicon in Central Greece.

INSPIRATION

The sweet melody from the poems of the 9 Muses that you hear when you walk in the vineyards of the valley of the Muses.

CLIMATE

The climate is characterized by mild, wet winters and dry summers, with long periods of sunshine.

VINIFICATION

Cold extraction for 12 hours at 8 ° C in an oxygen-free environment and then cold fermentation at a constant temperature at 18 ° C. Upon completion of the cold extraction and before the onset of alcoholic fermentation, agricultural alcohol of wine origin is added. This preserves all the sugars and the primary aromas of the grape itself.

HARMONY

It is an ideal aperitif accompanied by roasted almonds, dried apricots, as well as fruits, sweets, orange cream, ice cream and sorbet.

AGING

Unoaked

WINE CHARACTERISTICS

Golden yellow color with golden highlights. On the nose we have mild aromas of honey and lemon as well as fresh fruits such as pear and apples. In the mouth we have elements such as honey, orange peel and caramel.

Excellent structure with depth of flavors and acidity that refreshes the mouth. The finish is long lasting with the taste of honey dominating.

VINEYARD

The soil is fertile, with mixed composition ranging from sandy loam to clay loam thus offering the possibility of producing wines of exquisite quality and rich aromas. The micro-climate of the region is characterized by cold winters and warm summers, while a small river called Permisos contributes to the existence of a mild continental climate.

VINEYARD SLOPE

The vineyards are located at an altitude between 450 and 550m and have a slope between 3 & 7%

VINE-GROWING

We cultivate our vines according to the principles of integrated agriculture which ensures protection for the environment, the consumer and the people working in the fields.
