Chrisolithos means, "Golden Stone" and our wine was named after it because the soil is very fertile.

● **CLIMATE**  
The climate is characterized by mild, wet winters and dry summers, with long periods of sunshine.

● **VINIFICATION**  
Cold skin contact for 12h at 8°C in an oxygen free environment and then cold fermentation at steady temperature at 18°C. Part of Chardonnay aged for 2 months in new oak barrels.

● **WINE CHARACTERISTICS**  
Bright, straw-yellow color. Intense fruity aromas of peach, melon and pineapple. In the palate it is warm, complex, balanced with characteristic minerality. The high acidity supports the alcohol giving a complete result with long finish.

● **HARMONY**  
Enjoy it with seafood, fish, lobster and crayfish, poultry or pork in white sauces and mild goat cheeses.

● **VINEYARD**  
The soil is fertile, with mixed composition ranging from sandy loam to clay loam thus offering the possibility of producing wines of exquisite quality and rich aromas. The microclimate of the region is characterized by cold winters and warm summers, while a small river called Permisos contributes to the existence of a mild continental climate.
